It's a great time to work and live in Austin. Listed as one of the fastest growing and most desirable geographic areas in the United States, Austin, Texas, and the surrounding area continues to see tremendous growth. The reasons to live in Austin are plentiful as the area offers a lower cost of living compared to the East and West coasts, bustling job market, and thriving creative art and music scene. The Austin Business Journal reports that 151 people are moving to the Austin area each day<sup>1</sup>.

The people of Austin and the surrounding areas are trailblazers, innovators, and creators. Whether it's a startup founder moving to Austin to launch or grow their company or a small business services organization continuing to serve their community, or a freelancer just launching their design business, Austin is a great place to make that happen. The challenge is finding the right place to grow and work on your business within the Austin community. We hope this resource gives you the information you need to find the best coworking and office space that's right for you.

Happy Coworking!
